

## **GENERAL REOPENING POLICIES & CLUB-WIDE RULES**

### General Policies

1. Wightman will adhere to the strictest of town, state or federal guidelines. Wightman will also adjust and may relax its usage rules as data are developed and observation indicates that change is prudent and warranted. Whenever any relaxation of these rules occurs, people who choose to participate – staff, Members, and guests – must accept potential additional risk.
2. As advancing age and certain underlying conditions are risk factors for death with COVID-19 infection, some accommodations will be made for people in those groups.
3. The only areas of the building accessible are the Fitness Center, Multi-Purpose Room, upstairs bathroom and bathroom on the indoor pool deck, accessible via the outdoor pool gate. The locker rooms are not accessible, so please plan accordingly. We ask that Members not congregate in the parking lots or on the courts and that all non-cohabiting individuals practice social distancing and wear a mask when not exercising.

## CLUB-WIDE RULES

Members are allowed on Club property between 8 am and 9 pm to park and immediately proceed to the activity they have reserved: either a tennis court, a designated area on the lawn, or a swim lane.

Tennis players need to check-in with the front desk attendant under the outdoor tennis gazebo. Those who have a reservation for the pool area will check-in with a staff member at a table immediately inside the gate.

All guests need to pre-register with Wightman before using the facilities: [https://docs.google.com/forms/d/e/1FAIpQLSdtkpISZBWtk6rvwaUldrM60Xxw\\_vWGO63LZM\\_S0e-jSkdvRsA/viewform](https://docs.google.com/forms/d/e/1FAIpQLSdtkpISZBWtk6rvwaUldrM60Xxw_vWGO63LZM_S0e-jSkdvRsA/viewform). Please contact Wightman Management for the most up-to-date guest policies.

While on Club property, Members must wear masks if that is the federal, state or local recommendation at the time. However, Members may not wear masks while *actively playing* tennis, while in the pool, or while working out.

Any staff or Member with *any* symptoms of any sort of sickness is not allowed on Club grounds. Symptoms include: fever, runny nose, sore throat, cough, sneezing, red eyes, trouble breathing, wheezing, stomach pain, recent loss of taste or smell, diarrhea, nausea, lack of energy, abdominal pain or any new aches and pains, hallucinations or seizures. Importantly, any person with any household Member exhibiting any of these symptoms will also not be allowed on Club grounds. Individual exceptions can be made by the GM for normal symptoms of chronic conditions such as allergies and asthma. No one who has recently been exposed should visit the Club, whether or not they are symptomatic.

To accommodate those who wish to lounge outside when insufficient lawn parcels are available for reservation, Wightman has created a new outdoor lounging area between the Clubhouse and the tennis courts. Seating in this area is available on a first-come-first-served basis and is also subject to social distancing guidelines.
